

Om Bhanuse

Software Engineer | Full-Stack Developer | AI Engineer

ombhanuse.vercel.app | github.com/Ombhanuse27 | linkedin.com/in/om-bhanuse-097635295/ |

ombhanuse364@gmail.com | 7757098385 | Sangli, India

SUMMARY

Full-Stack Developer skilled in MERN, Next.js, Agentic AI, and DevOps, with experience delivering scalable, production-grade systems. Strong foundation in Data Structures & Algorithms, OOP, DBMS, and OS with experience in agile environments.

EDUCATION

D.Y. Patil College of Engineering and Technology, Kolhapur

Sep 2023 – June 2026

Bachelor of Technology - Computer Science and Engineering, CGPA: 8.01/10

Kolhapur, India

Government Polytechnic, Miraj

Jun 2020 – May 2023

Diploma - Computer Engineering, Percentage: 82.74%

Miraj, India

SKILLS

Programming Languages: HTML5, CSS3, JavaScript, TypeScript, Java, Python, SQL

Frontend: React.js, Next.js, Tailwind CSS, Redux, React Router

Backend: Node.js, Express.js, REST API Design and Development, GraphQL

Databases: MongoDB, MySQL, PostgreSQL, Firebase, Neon, Supabase

DevOps & Tools: Docker, Git, GitHub, CI/CD, GitHub Actions, Linux, Vite, AWS, Postman, Vercel, Render

EXPERIENCE

Full Stack Developer Intern | Softcadd Technologies, Pune

Jan 2026 – Present

- Developed and optimized production-ready frontend and backend modules using React.js, Node.js, TypeScript, Tailwind CSS, and Supabase for a multi-role job search platform serving 200+ active users, improving application response time by 20%.
- Debugged production issues, optimized UI workflows, and collaborated using Git in an Agile development environment to deliver stable, production-ready deployments with improved application reliability.

Software Developer | Collab Vision Infosolutions, Kolhapur

Jun 2025 – Aug 2025

- Developed and contributed to real-world Web and Android applications, implementing features, integrating APIs, and improving applications performance, reliability, and user experience.

PROJECTS

SkillPulse.ai | Next.js, TypeScript, Groq, LangChain, LangGraph, Prisma, PostgreSQL, GraphQL

Link: <https://skills-pulse-ai-agent.vercel.app/>

- Developed an AI-powered career coaching platform using multi-agent LLM orchestration to generate personalized learning roadmaps, mock interview simulations, and resume skill-gap analysis with LangChain, PDF parsing, and tool-calling.
- Architected a real-time gamified learning dashboard with XP, streak, and goal tracking using LangGraph-based agent workflows, exposing GraphQL APIs and persisting structured learning plans in PostgreSQL via Prisma ORM.
- Built a streaming Neural Mentor AI assistant enabling real-time concept explanations, contextual Q&A, and adaptive quiz generation, reducing response latency by 70% with context windows ensuring hallucination-free outputs.

HealthSchedule | MERN Stack, AI Calling Agent, WebRTC, PeerJS, Vercel, Render, Docker

Link: <https://health-scheduling.vercel.app/>

- Built a multi-hospital appointment booking platform with AI calling automation, real-time patient scheduling and role-based access control (RBAC) system for admins to manage hospital profiles and appointment workflows.
- Implemented real-time WebRTC + PeerJS video teleconsultation infrastructure and a doctor-facing dashboard for appointment management and digital e-prescription delivery, optimized for low-latency peer-to-peer communication.
- Containerized the full application with Docker and deployed via automated CI/CD pipelines (GitHub Actions) to Vercel (frontend) and Render (backend), ensuring scalable, zero-downtime production delivery.

StudentGPT - Academic Assistant | Next.js, TypeScript, Groq, pdf-parse, LLM, RAG, Neon, PostgreSQL

Link: <https://dypcet-chatbot.vercel.app/>

- Built an AI-powered chatbot to automate students' academic queries such as attendance, timetable and syllabus retrieval.
- Implemented a Retrieval-Augmented Generation (RAG) pipeline with PDF/DOCX document parsing and LLM integration to enable users to upload documents and receive AI-driven, context-aware responses.

CERTIFICATIONS & ACHIEVEMENTS

- Secured **2nd Rank** in the **Pratham Code Zonal-Level Competition** held at **DYP CET**. [Link](#)
- Solved **350+ DSA** problems on **LeetCode** and **100+** on **GeeksforGeeks** while participating in coding contests. [Link](#)
- Successfully completed **GeeksforGeeks 160 Days of Problem Solving**. [Link](#)
- Completed **AWS Cloud Technical Essentials** and **Agentic AI with LangChain & LangGraph** (Coursera) [Link](#)
