SUMMARY

Passionate **B.Tech Computer Science student** with a strong interest in **Full Stack Development** and **DevOps**. Focused on the **MERN stack**, **Next.js** and **Docker** with hands on experience in building scalable web applications.

EXPERIENCE

Full Stack Developer Intern - Softcadd Technologies, Pune

January 2026 – Present

- Currently contributing as a Full Stack Developer on multi-role professional job search platform for businesses, professionals and freelancers, developing frontend and backend features using React, TypeScript, Tailwind CSS and Supabase.
- Collaborating with team members to debug issues, optimize UI flows, and deliver production-ready features.

Full Stack Intern - IIT Bombay-EdTech Society

June 2025 - October 2025

- Collaborated on full-stack project addressing real-world challenges in EdTech domain under guidance of IIT Bombay mentor, with strong focus on research-driven problem solving and implementation.

Software Trainee - Collab Vision Infosolutions, Kolhapur

June 2025 - September 2025

- Contributed to real-world application projects, improving my technical expertise, problem-solving skills, and ability to work effectively with experienced development teams.

PROJECTS

HealthSchedule - MERN Stack, AI Calling Agent, WebRTC, PeerJS, Vercel, Render, Docker

[Link](#)

- Built a multi-hospital platform with phone call/online appointment booking in any preferred slot of the day.
- Centralized admin control for hospitals & doctors to manage appointments (reschedule, tele-consult) and hospital profile.
- Doctors can interact with allotted appointments, send e-prescriptions, and attend patients on tele-consultation room.

SkillPulse - Next.js, PDF-Parser, Groq, LLM, LangChain, Supabase, Typescript

[Link](#)

- Built a AI career coaching platform using AI agents to analyze resumes, identify skill gaps, generate actionable reports (roadmaps, project ideas, quizzes, ATS improvements) and conduct mock interviews with real-time feedback.
- Integrated Groq LLMs with langchain for low-latency inference for mock interview simulations and resume analysis for report.

DYPCET Chatbot - Next.js, PDF-Parser, Groq, LLM, MySQL, Typescript

[Link](#)

- Built an AI-powered chatbot that use AI agents to solve academic queries (Fetch attendance, timetable, and syllabus).
- Implemented Document-based Q&A enabling users to upload PDFs and receive AI-driven, context-aware responses

BlogVerse - MERN Stack, Socket.io, OAuth, Vercel, Render, Docker

[Link](#)

- Built an interactive blogging platform for content publishing and user-to-user engagement (like, share, save, follow).
- Real time chat section for bloggers to staying connected with each other implemented using WebSockets.

EDUCATION

D.Y. Patil College of Engineering and Technology, Kolhapur

September 2023 – Present

B.Tech - Computer Science and Engineering

CGPA: 7.96 / 10

Government Polytechnic, Miraj

June 2020 – May 2023

Diploma in Computer Engineering

82.74%

City Highschool, Sangli (Maharashtra)

June 2014 – May 2020

Secondary School Certificate

93.60%

SKILLS

Languages/Frameworks: HTML, CSS, Javascript, Typescript, Java, React.js, Node.js, Express.js, Next.js, Go, PHP

Databases/Tools: MongoDB, MySQL, PostgreSQL, Firebase, Postman, Supabase, Docker, Kubernetes, Git/GitHub, CI/CD

Other Skills: Frontend Development, Backend Development, Java, SQL/NoSQL, REST API, GraphQL API, Docker

CERTIFICATIONS & ACHIEVEMENTS

- Secured **2nd Rank** in the **Pratham Code Zonal-Level Competition** held at DYPCET.
- Solved **300+ DSA problems** on **LeetCode** and **100+** on [GeeksforGeeks](#) with participating in ongoing contests.
- Successfully completed **GeeksforGeeks 160 Days of Problem Solving**, strengthening DSA and problem solving skills
- Completed **AWS Cloud Technical Essentials**, **Agentic AI with LangChain and LangGraph** (Coursera).
