SUMMARY

Full-Stack Developer with experience building and shipping production-grade applications using MERN, Next.js, AI/LLM systems, and cloud technologies. Proven ability to develop scalable products and multi-agent AI solutions from architecture to deployment.

EDUCATION

D.Y. Patil College of Engineering and Technology, Kolhapur

Sep 2023 – June 2026

Bachelor of Technology - Computer Science and Engineering, CGPA: 8.10/10 | Kolhapur, India

Government Polytechnic, Miraj

Jun 2020 – May 2023

Diploma - Computer Engineering, 82.74% | Miraj, India

SKILLS

Languages: JavaScript, TypeScript, Java, Python, SQL

Frontend: HTML5, CSS3, React.js, Next.js, Tailwind CSS, Redux, React Router

Backend: Node.js, Express.js, REST APIs, GraphQL, JWT Authentication, RBAC, Socket.io, WebRTC

Databases: MongoDB, MySQL, PostgreSQL, Firebase, Neon, Supabase

DevOps & Tools: Docker, Containerization, Git, GitHub, GitHub Actions, CI/CD, AWS, Linux, Vite, Postman, Vercel, Render

EXPERIENCE

Full Stack Developer Intern | Softcadd Technologies, Pune

Jan 2026 – May 2026

- Developed and optimized production-ready frontend and backend modules using React.js, Node.js, TypeScript, Tailwind CSS, and Supabase across 5 live production applications including a multi-role job search platform serving 150+ active users.
- Implemented RBAC and JWT-based authentication flows, integrated third-party APIs, and resolved production-level frontend and backend issues across 5 live applications in an Agile development environment.

Software Developer Intern | Collab Vision Infosolutions, Kolhapur

Jun 2025 – Aug 2025

- Developed and contributed to real-world Web and Android applications, implementing features, integrating APIs, and improving application performance, reliability, and user experience.

PROJECTS

SkillPulse.ai | Next.js, TypeScript, Groq, LangChain, LangGraph, Prisma, PostgreSQL, GraphQL, CI/CD, Docker

[Live](#) | [GitHub](#)

- Developed a multi-agent skill development platform using LangChain and LangGraph — featuring Role-Aligned Resume Auditing & Skill-Gap Analysis, AI Mock Interviews, and personalized learning pathways for end-to-end skill growth.
- Built a gamified learning dashboard serving 20+ AI-generated roadmaps via GraphQL APIs, enabling XP-based progression, streak & goal tracking, contextual Q&A, and adaptive quizzes, with learning plans persisted in PostgreSQL via Prisma ORM.
- Developed a streaming AI assistant with context-window management delivering sub-500ms average response time, enabling real-time concept explanations and session-aware Q&A within active learning sessions.

HealthSchedule | MERN Stack, DialogFlow, WebRTC, PeerJS, Vercel, Render, GitHub Actions, Docker

[Live](#) | [GitHub](#)

- Built a multi-hospital healthcare platform integrating Dialogflow-powered AI voice agents for appointment booking, real-time appointment scheduling, teleconsultation, and RBAC-based operational workflows for hospital admins and doctors.
- Implemented real-time WebRTC + PeerJS video teleconsultation infrastructure and a doctor-facing dashboard for appointment management and digital e-prescription delivery, ensuring low-latency communication across hospital workflows.
- Containerized the full-stack application with Docker and automated deployments via GitHub Actions to Vercel and Render, enabling reproducible and scalable production builds.

StudentGPT – Academic AI Assistant | Next.js, TypeScript, Groq, pdf-parse, LLM, RAG, PostgreSQL, Neon

[Live](#) | [GitHub](#)

- Built an AI-powered assistant adopted by 20+ students, resolving queries on attendance, timetable and syllabus documents.
- Implemented a Retrieval-Augmented Generation (RAG) pipeline ingesting 20+ college documents (PDF/DOCX/MD) with vector-based retrieval, enabling document-grounded, context-aware responses tied strictly to source content.

CERTIFICATIONS & ACHIEVEMENTS

- Secured 2nd Rank in the Pratham Code Zonal-Level Competition held at DYP CET. [Link](#)
- Presented and published “CloudLynk: A Real-time IoT Device Control Platform” at ICR TET 2026 [Link](#)
- Solved 350+ DSA problems on [LeetCode](#) and completed GeeksforGeek’s 160 days of Problem Solving challenge. [Link](#)
- Completed AWS Cloud Technical Essentials and Agentic AI with LangChain & LangGraph (Coursera). [Link](#)
