SUMMARY

Passionate B.Tech Computer Science student with a strong interest in Full Stack Development and DevOps. Focused on the MERN stack and Docker with hands on experience in building scalable web and mobile applications.

Work EXPERIENCE

Full Stack Developer Intern - IIT Bombay-EdTech Society Jun 2025 - Oct 2025

Worked on collaborative project for solving real world problem in EdTech domain under guidance of IIT Bombay mentors, with strong focus on research-driven problem solving and implementation

Software Trainee - Collab Vision Infosolutions Jun 2025 - Sep 2025

Worked on web and app projects that can solve real world problems that helps me to improve my technical skills as well as problem solving skills by working with experienced peoples.

Networking Intern - Indradeep Information Technologies Pvt. Ltd. Jul 2022 - Aug 2022

Learned basic networking tasks like crimping, File sharing in LAN, OS installation, CPU installing, IP Address configs etc. during my diploma.

PROJECTS

DYPCET Chatbot - Agentic AI, PDF-Parser, Groq API, Next.js, MySQL, Typescript [Link](#)

- Built an AI-powered chatbot that use AI agents to solve academic queries (Fetch attendance, timetable, syllabus).
- Users can upload files (pdf, word etc.) and ask questions with respect to uploaded files.

Health Schedule - MERN Stack, AI Calling Agent, WebRTC, PeerJS, Vercel, Render, Docker [Link](#)

- Built a multi-hospital platform with phone call/online appointment booking in any preferred slot of the day.
- Centralized admin control for hospitals and doctors to manage appointments and hospital profile.
- Doctors can interact with allotted appointments, send e-prescriptions, attend patients on teleconsultation room.

BLOG-HUB - MERN Stack, Socket.io, OAuth, Vercel, Render, Docker [Link](#)

- Built an interactive blogging platform for content publishing and user-to-user engagement (like, share, save, follow).
- Real time chat section for bloggers to staying connected with each other implemented using WebSockets.

DailyBasket - Flutter, Dart, Firebase [Link](#)

- Developed a grocery app for shopkeepers to manage inventory, track sales/revenue, and generate bills.
- Implemented role-based access for employees to manage products and billing.

EDUCATION

D.Y. Patil College of Engineering and Technology, Kolhapur Sept. 2023 – Present
B.Tech - Computer Science and Engineering CGPA: 7.85 / 10

Government Polytechnic, Miraj Jun. 2020 – May 2023
Diploma in Computer Engineering 82.74%

City Highschool, Sangli Jun. 2014 – May 2020
Secondary School Certificate 93.60%

SKILLS

Languages/Frameworks React.js, Node.js, Express.js, Next.js, HTML, CSS, JavaScript, Java, Python, PHP, Go
Databases/Tools MongoDB, MySQL, Firebase, Postman, Docker, Kubernetes, Git/Github
Other Expertise Web Development, Mobile App Development, REST API's, Docker.

CERTIFICATIONS & ACHIEVEMENTS

- Secured 2nd Rank in the Pratham Code Zonal-Level Competition held at DYPCET.
- Solved 300+ problems on LeetCode and 100+ on GeeksforGeeks with participating in ongoing contests.
- Completed the AWS Cloud Technical Essentials, DevOps Prerequisite Course by KodeKloud (Coursera).
- Achieved 7th Rank in the NMMS Competitive Examination.
